

# BULLDOG FOOTBALL

## “OUR PHILOSOPHY”

The field is a classroom. We want you to learn everything you can about the fundamentals of football. The more you learn and play, the more success and enjoyment you will experience. We are looking for players who want to learn as much as possible and who love the daily challenge of giving their best performance every time they step on the field for practice or a game.

**WELCOME** to what will be a great year for Bulldog Football. It is easy to get excited about this year with the quality of individuals that are part of our program and the great steps our program has made. Last year, we accomplished a lot, we continued to gain the respect of our opponents and we proved to our community that Bulldog Football is alive and well. Our success reflects teamwork, talent, effort and heart. Thank you all for your tremendous effort and the legacy you've created within our community.

This year, we are excited to again play in the highly competitive Greater Puget Sound Youth Football League including teams from the Greater Tacoma and Seattle area. The league was created out of a need to promote good sportsmanship and a high level of competitive play for kids with a strong interest in football and a higher level of competition. Our coaching staff consists of individuals that have a real passion for the game of football and have been involved in many levels of competition including high school, college and in some cases the professional ranks. All of our coaches are highly trained and certified to coach kids from 3rd to 8th grade in the game of football. Safety is and will continue to be our highest priority.

**2010 Season**
